1. The amendment filed 5/21/04 has been considered and entered. Claims 1-27 remain in the application with claims 20-27 being directed toward a non-elected invention.

2. It is noted that claims 10-19 were canceled because claims were duplicates of allowed claims 1-9 and would have garnered a 35 USC 112 rejection if not canceled. Claims 20-27 were canceled because claims were withdrawn from prosecution and have not been prosecuted in the application.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Matthew Connors on 7/28/04.

The application has been amended as follows:

Claims 10-27 have been canceled.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest a method of increasing the photoluminescence of an Erbium Oxide thin film comprising reacting the Erbium sputtered atoms with O₂ in a gas phase, depositing the Erbium Oxide on a substrate having Silicon Oxide film and annealing at low and high temperatures to increase crystallinity. The prior art teaches pattering Erbium Oxide on a Silicon substrate but not a Silicon Oxide layer. Increased photoluminescence is achieved with the Silicon Oxide layer in combination with the annealing treatments.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian K Talbot whose telephone number is (571) 272-1428. The examiner can normally be reached on Monday-Friday 6AM-3PM.
